### Gap at CET Programs

- P14: China Fieldwork Semester
- P15: CET Gap Programs

I did not know how [my student] would hold up for four weeks in a foreign land as she has struggled with anxiety related issues. It was completely her decision to step up to the plate and accept the challenge and I am so grateful that she did. **She was enamored with Italy at first sight** and embraced the immersion in beauty, history and artful living. **The busy pace of academic work and scheduled exploration kept her focused and occupied and learning constantly. She returned home with inspiration, pride and self-confidence!** What an amazing way to start off a gap year!

# PRE-COLLEGE WITH CET

## Why Study Away in High School?

**JUMP-START YOUR FUTURE:** Pre-college programs are more than just a resume builder. They give you a taste of the college academic experience and insight into new possibilities for your future, from majors, to a gap year, to potential careers.

**CHALLENGE YOURSELF:** High school is a great time to get out of your comfort zone and gain exposure to the world beyond your backyard. Exploring a new place and adapting to another culture helps you grow as a person, and build the confidence, independence, and creative problem-solving skills you need in college.

**MAKE LIFELONG CONNECTIONS:** The experience stays with you long after the summer is over. Make lasting memories and friendships with fellow participants and learn from everyone you meet along the way.
