WHO IS CET?

CET Academic Programs is a study abroad organization that has been developing and operating innovative educational programs abroad since 1982. Originally "China Educational Tours," CET began operations in Beijing, and today offers a varied portfolio of semester, summer, and customized programs for college, high school, and gap year students around the world. Known for strong academics, professional program management, and supportive student services, CET strives to integrate students into their host communities, adopt environmentally conscientious practices, and promote diversity, equity, and inclusion across all programs and operations.

WHY PARTNER WITH CET?

Interested in offering a program for your students? Have an existing one that could use some support? When a partner approaches us, our strategy for success is genuine, two-way collaboration. We work with you to design and deliver a custom program that meets your needs and achieves your school or organization's unique academic and cultural goals.

It's no coincidence that our middle name is *Academic*. Our programs are designed with intentional learning outcomes. Everything we do—from site visits to local language buddies to overnight excursions—brings together content and context, paving the way for formative intellectual growth.

EVERYTHING YOU NEED, NO MATTER WHERE YOU GO

We work with you to determine what your program needs and how CET can add value to your content. From pre-departure to the return flight home, you and your students will have full support. We have managed student health and safety for 40 years and have the experience needed to minimize risk, along with resources, plans, and staff in place to address any issues that may arise for individuals or for the group.
